EDUCATION

Indian Institute Of Information Technology

2019 - 2023

Bachelor of Technology in Computer Science and Engineering

Kalyani, West Bengal

S.R.S. Vidya Mandir

2012 - 2018

Std. VII - XII

Forbesganj, Bihar

PROJECTS

Image Search Engine

Nov. 2023 - Dec. 2023

(JavaScript, HTML, CSS)

NLP - Powered Food Delivery App("Chotu-Bot")

Jul. 2023 - Sept. 2023

(Dialogflow, FastAPI, MySQL, Python)

- Developed and implemented a Natural Language Processing(NLP) powered chatbot to enhance user experience and streamline interactions for a food delivery website.
- Leveraged Google Dialogflow for NLP capabilities and fastAPI as the backend framework.
- Implemented a MySQL database to manage new orders as well as track orders.

Fake News Detection

Jan. 2023 - May 2023

(Python, nltk, scikit-learn)

- Developed Extensive Data Cleanse NLP (EDC-NLP) Pipeline for effectively cleaning the common linguistic hindrances.
- Developed a base model and an alternative model and then used the newly developed pipeline as a basis to distinguish between fake and real news.
- Results showed an improvement of upto 25% in the accuracy score compared to the base model.

Spotify Web Clone

Mar. 2023 - Apr. 2023

(JavaScript, HTML, CSS)

SKILLS

Languages: C/C++, Python, SQL, Java, HTML/CSS, JavaScript, React

Developer Tools: Jupyter Notebook, Google Colab, Git & Github, VS Code, Dev C++, MySQL

Soft Skills: Time Management, Communication, Team Work, Problem Solving, Work Ethic

EXTRACURRICULAR & INTERESTS

▪ Market Research, Analysis and Operations

- Did initial market research and analysis to find competitor market share, periods of higher and lower sales and potential locations to improve sales.
- Actively participated in operational activities essential for launching a new small business, significantly contributing to its successful establishment and growth.

▪ Interests: anime; poetry; cooking; sketching; leetcode
